Benefits of Studying at Kazakh National Medical University

Campus

The university campus has many activity centres like scientific communities, interest clubs, sports schools, volunteering, charity work, public work, cultural events etc. Interaction between students from abroad and Kazakh students in the English-speaking groups allows foreign students to adapt to the new socio-cultural environment; educational system etc. Attention is paid to educational work as an essential.

Departments at Kazakh National Medical University have gained an extensive experience in teaching in English, which contributes to the effective implementation of the educational process with students from different countries and Kazakhstan wishing to study in English. Teaching at Kazakh National Medical University is imparted in 3 languages - Kazakh, Russian, and English. Kazakh National Medical University works with leading specialists of the country and abroad. It is equipped with training rooms, modern equipment for interactive learning. The theoretical basis is followed with clinical practice.

School of General Medicine KazNMU

By the decision of the Government of the Republic of Kazakhstan from April 23, 2006 No. 317, the Concept of reforming the medical and pharmaceutical education of the Republic of Kazakhstan was adopted. According to the adopted Concept, training of specialists with higher medical education is provided within the framework of basic medical education in the specialty "General Medicine". To prepare doctors for the specialty "General Medicine", a state standard of education was prepared, which laid down the basic competences of the graduate. In 2007, the first set of students was admitted to the university with a degree in General Medicine.
